OVERALL EXCELLENCE AWARD

(AIA Bylaw; Article 13, Section 2)

The E.A. Row, Don. F. Stone, H. A. Hendrickson and Harold L. Slemmer banners are awarded annually by the Arizona Interscholastic Association (AIA) Executive Board for overall excellence in interscholastic competition. Excellence is determined by a point system approved by the AIA Legislative Council. These awards commemorate the outstanding service of the Executive Directors who have served the AIA Since its organization opened in 1925.

Mr. Row, Superintendent of Tempe Union High School District, was Executive Director from the inception of the AIA until his death in 1951. He was succeeded by Mr. Stone, Principal of West Phoenix High School. Mr. Hendrickson became the AIA's first full-time Executive Director on June 11, 1964. Dr. Slemmer, only the sixth Executive Director, has served the longest from 1999-2017.

The Row award, which was established in 1969, is presented to a 1A Conference school. The Stone award, which began in the fall of 1964, honors a 2A Conference school and a 3A Conference school. The 4A Conference and 5A Conference school award is named in honor of H.A. Hendrickson and was first presented in 1975. The Slemmer award began in spring of 2017 and is given to a 6A Conference school.

8.5 REGION MEETINGS - All AIA Region or affiliated organization meetings shall be open to the public. Notice of a regular or special meeting shall be posted on the AIA website at least three (3) calendar days prior to the meeting.

8.5.1 Interested parties in attendance at an AIA Region meeting may be called upon for advice or information.

8.6 DIVISION AND SECTION PLACEMENT PROCESS (for individual sports: badminton, cross country, golf, swimming, tennis, track, wrestling) – A school shall be placed in a Division based on the Division Placement Determination (see below). A school's Section placement for the sports of wrestling and cross country shall be based on the recommendations of the Wrestling Sports Advisory and Cross Country Sports Advisory committees, respectively. A School may appeal its Division or Section placement directly to the Executive Board, following the procedure and timeline adopted by the Board for that purpose. The Board's consideration of any Division or Section appeal will utilize the criteria set out under Bylaws 8.1.10.1 and 8.1.10.4.

Division Placement Determination

Rationale: the number of schools that compete in these sports vary from sport to sport, thus some conferences will be split or combined to maintain the state tournament format for these sports. Qualifying to the state tournament is unique to each individual sport and must be thought of differently than team sports. Continuing with the division model in individual sports allows the AIA to continue competitive fairness in qualifying for individuals into the respective state tournaments.

FINANCES

9.1 DUES AND FEES

9.1.1 The AIA shall be financed by membership dues, participation fees and revenues received or derived from other sources.

9.1.2 The revenues of the AIA shall not be used for the benefit of, or be distributed to, its members, officers or other private persons, except that the AIA shall be authorized and empowered to pay reasonable compensation for services rendered and to make payments and distribution in furtherance of the purpose of the AIA.

9.1.3 The AIA Executive Board shall approve and levy annual membership dues and participation fees. Annual increases in membership fees and participation fees shall be limited to be no greater an annual percentage increase than the percentage of increase in "new money" allocated to public schools for "maintenance and operations" by the Arizona State Legislature for that fiscal school year. Membership for the ensuing year must be renewed prior to September 1 of each year. Member schools that do not pay their membership dues, participation fees, athletic mileage and student excess accident (catastrophic) insurance premiums, or make payment arrangements with the AIA Executive Director prior to October 1 will be dropped from membership. Dues, fees, mileage, insurance premiums and a reinstatement fee of $200.00 must be paid in order to regain membership. The AIA Executive Board may levy an assessment on all schools above and beyond the membership dues and fees with approval of the AIA Legislative Council.

9.1.3.1 Membership Dues $ 2,182

9.1.3.2 Participation Fees $ 223 per varsity girl, boy or mixed-sex sport.
(Includes 2 NFHS Rule Books per Varsity sport)

9.1.3.3 **Legal Defense Recovery Fund** – On an annual basis, the Executive Board shall determine an amount each school shall be billed as a result of legal defense fees incurred over and above the annual budgeted amount approved by the Executive Board. This may be a zero amount.

9.1.3.4 Member schools not participating in interscholastic athletics shall be assessed one-third (1/3) of the yearly membership dues and one-third (1/3) of the yearly per-student excess accident (catastrophic) insurance premium.

NOTE: The fiscal year of the AIA is July 1 through June 30.

9.1.3.5 Dual State AIAAA/NIAAA current annual membership dues per athletic director/athletic administrator per school will be added to the AIA membership dues each year. Those funds will then be transferred via check to the AIAAA each September 30 of the current school year.

9.2 ASSESSMENTS

9.2.1 Athletic Mileage

9.2.1.1 All AIA member schools shall be assessed an annual fee* to reimburse expenses incurred by the AIA on behalf of the schools for regular season varsity athletic officials' mileage. ***(*invoiced seasonally)***

The assessment shall be computed as follows:

- Amount of varsity officials' regular season mileage paid out totaled.
- That amount divided by the total number of sports participation fees paid for sports with assigned AIA officials = "one unit" = cost per sport.
- Participation in those sports totaled by each school.
- Each school assessed one unit for each of those sports participated in that utilized AIA assigned officials.
- Example:
  - Total Regular Season Mileage = $400,000 / 2,000 total sports = $200 per sport.
  - School with 8 sports = $1,600 in Regular Season Officials Mileage bill back.

9.2.2 Student Excess Accident Insurance - Each member school shall purchase excess accident (catastrophic) insurance to insure students against injuries sustained while engaged in school sponsored interscholastic sports and activities sanctioned by the AIA during the season of sport or activity as identified in the AIA Constitution and Bylaws. The AIA Executive Board shall determine the insurance carrier for said coverage and notify member schools of the carrier selected and the premium rate. Each member school shall pay the premium to the AIA office who, in turn, shall send a payment to the insurance carrier to cover the total annual premium for the member schools. Itis understood that the AIA and the AIA Executive Board are not agents or representatives of, or in any way affiliated with, said insurance carrier. The insurance carrier shall set the terms and conditions of said coverage and AIA shall not be liable for any claims related to the terms and conditions of said coverage. Demonstration and/or exhibition events (e.g., home run derby, slam dunk competition, three point shooting competition, closest to the pin competition, etc.) are not considered "sports and activities sanctioned by the AIA" and will not be covered by the catastrophic insurance referenced in this bylaw.

14.11.3 A school may offer volleyball only for girls and not offer volleyball for boys.

14.11.4 Since boys historically have had ample opportunity for participation, and currently have available sufficient avenues for interscholastic participation, boys are not allowed to qualify for girls' teams in the following sports: badminton / softball / volleyball / flag football. To allow boys to qualify for girls' teams in these sports would displace girls from those teams and further limit girls' opportunities for participation in interscholastic athletics.

14.11.5 A school may offer badminton, flag football, softball, beach volleyball and volleyball for boys if sanctioned by the AIA membership in accordance with the AIA Constitution and Bylaws.

14.11.6 Whenever a school provides a team(s) for boys and a team(s) for girls in the same sport, girls shall not be permitted to qualify for the boys' team(s) in that sport, nor shall boys be permitted to qualify for the girls' team(s) in that sport.

DETERMINATION**:** *The Executive Board determined that baseball and softball are considered two separate sports and that the current AIA Constitution and Bylaws does not contain a rule, which excludes girls from participating in baseball. (Ex. Bd. 2/20/96)*

14.11.7 In the case of a mixed-sex team and a single-sex team, the mixed-sex team shall compete only against a boys' team or another mixed-sex team.

On an annual basis, prior to the beginning of the school year, the member school governing board shall determine by formal board action whether it will permit online charter school students to try out for interscholastic athletics and activities and said board determination will remain in effect for that school year. If permitted, the member school may charge online charter school students additional fees to participate in interscholastic athletics and activities.

15.10.4 A transfer student who plays only in sub-varsity competitions shall have immediate eligibility but is ineligible to participate at the varsity level in regular season, tournaments, and post-season competitions for the season in that sport. A decision to participate only at sub-varsity levels must be made prior to the season of competition and prior to filing a hardship. "Statement of Philosophy / Rationale for Transfer Rule"

- Promotes the educational philosophy that participation in interscholastic athletics is a privilege, which should not take a dominant role over academics;
- Recognizes the overwhelming administrative difficulty in attempting to determine the motives or reasons for each and every transfer, and, therefore, adopts a uniform objective standard to be followed by all member schools.
- Helps to protect opportunities for participation by students who attend school in the attendance zone of their domicile;
- Helps to protect and promote continuity of school programs;
- Serves as a deterrent to students running from or avoiding an athletic discipline that has been or may be imposed;
- Except as otherwise stated, this rule is intended to and shall encompass any and all transfer situations and shall apply to any and all member schools, be they public, private or parochial.
  NOTE: The fact that a student may or may not have paid tuition has no bearing on the applicability of transfer rules.

15.10.8 **For the purposes of 15.10.6**, a student enrolled at an AIA member school, who chooses to participate on a different team that competes in high school games during the AIA season of sport is considered a transfer. **This rule applies to the 12 months immediately preceding the season in which the student is seeking eligibility**.

15.10.8.1 A return back to the student's original AIA member school program shall be considered a **first** transfer with an ineligibility period the same as described in 15.10.1.

15.10.8.2 A subsequent transfer of eligibility to an AIA member school other than the original school will result in the student being ineligible for one year from the date of first attendance at the receiving school.

15.10.9 School Closures / Drop of AIA Membership – Upon closure or drop of AIA membership by the governing board, students may transfer at the beginning of the following semester to another school in the district as approved by the governing board, to the public high school of another district closest to the domicile of the parents, or to a private, parochial or BIE school and be automatically granted athletic eligibility.

15.10.10 When Sport or Nonathletic Activity Is Dropped by School – When a sport or nonathletic activity is dropped, a student may transfer to a school that offers that sport or nonathletic activity and shall be eligible only in the sport or nonathletic activity that has been dropped at the school from which the student transferred. Said eligibility will be granted when the student enrolls in one of the following schools:

15.10.10.1 A private or parochial high school in the county in which the parents are domiciled.

15.10.10.2 The public high school within the same school district closest to the domicile of the parents.

15.10.10.3 In the event the district does not offer the sport or nonathletic activity in any of its schools, the student may transfer to the public high school of another district closest to the domicile of the parents.

15.10.10.4 The transfer rule shall apply to other interscholastic sports and activities in which the student participates.

15.10.11 Disciplinary Removal - A student suspended, expelled or otherwise removed for disciplinary reasons, athletically and/or academically as imposed by the school or state association, including revocation or non-renewal of open enrollment, from one high school shall be ineligible for interscholastic competition in any other high school for one year or until all conditions for re-admittance have been fulfilled at the high school where the suspension, expulsion, open enrollment revocation or removal for disciplinary reasons occurred, whichever occurs first. (Emergency Legislation – 9/19/2025)

NIL activities consistent with the guidelines in AIA bylaw 15.11.1.2 will not result in loss of amateur status. NIL activities may not be utilized to violate AIA bylaw 15.12 (Recruitment Rule). A student that is in violation of this bylaw shall immediately lose eligibility if that student, his/her family member, or anyone else on behalf of that student, enters into an agreement with an individual, corporate entity, partnership, association, or any other party or organization which violates the guidelines in AIA bylaw 15.11.1.2.

15.11.1.2 **NIL Guidelines:** A student-athlete may benefit from the use of their name, image, and likeness (NIL) provided:

(Section 15.11 cont'd. on next page)

15.11.1.2.3 The compensation is not provided by the school, a booster club, a collective, or any person/entity acting as an agent on behalf of the school or athletic program.

A Collective is defined as any group organized or existing for the purpose of compensating or benefiting an individual student athlete or a group of student athletes of a member school. NIL Clubs are defined as a group of student athletes organized or existing for the purpose of soliciting funds or other benefits from fans, members or other sources, managing or promoting NIL activities of student athletes or otherwise providing funds or other benefits to an individual student athlete or group of student athletes.
- Booster Clubs are not considered Collectives or NIL Clubs if such Booster Club is operated under the supervision of a member school and provides monetary or other benefits to school athlete facilities, school athletic equipment, school team meals or other school team benefits rather than to an individual student athlete or group of student athletes.

15.11.1.2.4 Intellectual property - No “marks” may be used including, but not limited to, school or district name, logo, uniforms, mascots, or any AIA logo

15.11.1.2.7 No activities in conflict with a member school’s district policy may be endorsed. (Examples include, but are not limited to, tobacco products, alcohol products and controlled substances).

15.11.1.2.8 Within five (5) school days of entering into any NIL contract/agreement, a student, or the student’s parents/guardians, must notify the school’s Athletic Director of the agreement.

15.11.1.2.9 Students and their families should seek professional guidance regarding collegiate financial aid, NCAA clearinghouse, legal and/or tax implications, among other concerns.

15.11.2 An amateur athlete is one who has never used or is not using his/her knowledge of athletics or athletic skill in an athletic contest for financial gain.

DETERMINATION: The AIA Executive Board determined that an amateur may receive merchandise awards that do not exceed the limit as set forth in Article 13, Section 1.

15.11.3 A person who has lost his/her amateur standing in any AIA sanctioned sport loses his/her amateur standing in all sports in interscholastic competition for a maximum of one full calendar year from the date of discovery of the infraction or until reinstated by the AIA Executive Board.

15.11.4 Amateur athletes shall retain their amateur standing even though they participate during the summer vacation in schools or clinics sponsored by professionals. *(See Article 14, Section 9)*.

15.11.5 Individual students may receive monetary rewards for participation in luck-of-the-draw or lottery-type programs. This type of competition must be limited to individual type competition and not put one contestant against another. There is no limit on the amount of monetary award for this type of competition. (Examples: Shooting baskets at half-time at professional basketball games; shooting hockey pucks at goals during intermissions at hockey events).

15.11.6 Amateur athletes shall participate and always have participated under their own name

15.11.7 An amateur athlete shall not compete for money or other monetary compensation.

15.11.7.1 Amateur athletes may receive actual expenses for participating in out-of-town games. This amount shall not exceed the state of Arizona per diem.

15.11.7.2 Amateur athletes may receive a fee for officiating non-interscholastic high school and non-intercollegiate sports without jeopardizing their amateur standing.

15.11.7.3 Amateur athletes shall retain their amateur standing even though they receive compensation from private clubs for instructing students not enrolled in high school.

(Section 15.11 cont’d. on next page)

15.11.7.4 Amateur athletes shall retain their amateur standing even though they receive compensation from state, county, city, parks or recreation departments.

15.11.7.5 Amateur athletes may enter a tournament with or against professionals without jeopardizing their amateur standing providing they do not receive, or anyone receives for them, any monetary awards, gift certificates or merchandise awards which exceed the limits as set forth in Article 13.1.4.

15.11.8 Except for a Letter of Intent to attend a college or university, amateur athletes shall not enter into any agreement with any corporation, association, partnership or individual for their services as an athlete until they have terminated their attendance in high school. This includes professional clubs and/or teams for training and competition.

15.11.9 An amateur athlete, or any member of his/her family, shall not receive remuneration, either directly or indirectly; such remuneration being given to influence the student or the family to reside in a given high school district for purposes of establishing the student's eligibility on a team and/or participation with a club and/or team in the form of a scholarship and/or room and board. *(See also Article 15, Section 12)*.

15.11.10 A student may participate and receive monetary awards in non-interscholastic and/or non AIA sanctioned activities/contests (such as rodeo, boxing, bowling, judo) and be classified as an amateur under AIA rules. *(See Article 11, Section 1, Paragraph 2*).

15.12 **RECRUITMENT RULE** – There shall be no recruitment of athletes. Recruitment is defined as the act of influencing a student to enroll in a school or to transfer from one school to another in order that the student may participate in interscholastic athletics. No school administrator, athletic coach or employee of a high school district shall engage in recruitment either by direct contact with a student or indirectly through parents, legal guardians, common school employees, directors of summer athletic programs or other persons who are in a position to influence the student's choice of a school.

15.12.1 If the recruitment rule is violated, the student will not be eligible at a member school until reinstated by the AIA Executive Board.

15.12.2 If school personnel condone or actively engage in recruitment or a school uses a recruited student, the school shall be subject to disciplinary action by the AIA Executive Board. *(See Article 16, Section 1)*.

15.12.3 Contact procedures used in the soliciting of students to enroll in any public, private or parochial school shall be the same for all students.

15.12.4 Interpretations

15.12.4.1 Funds which have been donated to schools by clubs and individuals may be given as financial aid to students through the normal financial aid program of the school for all students, without regard to athletic potential. Financial aid based even partially on athletic potential or performance is not permitted from the school or from groups that exist because of or for the benefit of the school (e.g., booster clubs).

15.12.4.2 Individuals not exclusively representing athletic interests of a high school may make general presentations (not just athletic) to eighth grade students (not just athletes). There should be a variety of presenters, speaking on a variety of topics to students of all interests.

15.12.4.3 It is a violation of this section for a coach or any other unauthorized representative of a school to suggest or promise that any part of tuition will be waived for a prospective student for any reason, including financial need. The only person who may address the possibility of fee reduction is that person who has specific responsibility for admissions and financial aid policies and procedures.

15.12.4.4 If it is a faculty member's responsibility to recruit students (not just athletes) and that person makes such contact irrespective of athletic eligibility, such contact is permitted. However, anything done for an athlete that is not done in a comparable fashion for all students is a violation of the Recruitment Rule.

15.12.4.5 When a student at a junior high/middle school or other high school, or the parents of that student, contacts the coach about attending the coach's school, the coach shall refer the student or parent to the appropriate school personnel (those who have the responsibilities for seeking and processing prospective students).

(Section 15.12 cont'd. on next page)

15.12.4.6 A high school coach may not initiate contact with a student at a junior high/middle school or other high school, or the parents of that student, about attendance at the school. It is not a violation for a coach to have normal community contact with a student who attends a junior high/middle school of the same system, which is a feeder to the high school.

15.12.4.7 It is a violation of the Recruitment Rule if coaches or their representatives call, send questionnaires, cards or letters or visit prospective athletes and their families for the purpose of evaluating and recruiting specific prospective athletes.

15.12.4.8 High school coaches or their representatives may not attend grade school or youth sports games (e.g., Pop Warner) for the purpose of evaluating and recruiting specific prospective athletes.

15.12.4.9 High school coaches and administrators may not request booster clubs, parents, players, former players or alumni from the high school to discuss the merits of their athletic program with prospective athletes or their parents by phone, in person or through letters.

15.12.4.10 Any high school may allow all students of any junior high/middle school to attend its athletic events without charge.

15.12.4.11 Persons "indirectly associated with the school" include, but are not limited to, parents of players and booster club members. Such persons are prohibited from providing or performing any of the examples of recruitment listed in this section and its interpretations.

15.12.4.12 Examples of recruitment shall include, but are not limited to:

15.12.4.12.1 Offer or acceptance of money or other valuable consideration such as free or reduced tuition during the regular year or summer school by anyone connected with the school.
15.12.4.12.2 Offer or acceptance of room, board or clothing or financial allotment for clothing.
15.12.4.12.3 Offer or acceptance of pay for work that is not performed or that is in excess of the amount regularly paid for such service.
15.12.4.12.4 Offer or acceptance of free transportation by any school connected person.
15.12.4.12.5 Offer or acceptance of a residence with any school connected person.
15.12.4.12.6 Offer or acceptance of any privilege not afforded to non-athletes.
15.12.4.12.7 Offer or acceptance of free or reduced rent for parents.
15.12.4.12.8 Offer or acceptance of payment of moving expenses of parents or assistance with the moving of parents.
15.12.4.12.9 Offer or acceptance of employment of parent(s) in order to entice the family to move to a certain community if someone connected with the school makes the offer.
15.12.4.12.10 Offer or acceptance of help in securing a college athletic scholarship.

15.12.4.13 **OPEN HOUSE** – The intent of an open house is to allow incoming students to gather information regarding curriculum, programs, and the admissions process. Coaches may provide general information to prospective incoming students but no specific details or enticements as to participation if they were to enroll.

15.12.4.14 **PRIOR CONTACT** – Prefatory statement: In an effort to preserve and promote competitive fairness, and consistent with the AIA's mission to ensure that academics remain the primary focus of its member schools, the Prior Contact rule is an effort to deter recruiting of student-athletes and minimize athletically motivated transfers. However, the rule applies regardless of whether there is any evidence of athletic motivation or recruitment.

Despite compliance with the other provisions of AIA Bylaws, a student who transfers from one school (sending school) to another school (receiving school) is ineligible in the sport involved for one year from the date of attendance at the receiving school, if any of the following circumstances existed during the one year preceding the transfer:

- The student participated or practiced as an individual, on a school team, or on a non-school team coached, directed, supervised, managed, coordinated, owned or operated by any of the receiving school's coaches (in the sport involved), administrators or parents.

(Section 15.12 cont'd. on next page)

- The student participated or attended an open gym, open weight room, or open athletic facilities at the receiving school. For this circumstance, the sport involved is deemed to be any interscholastic sport in which the student has participated or practiced during the current or previous school year.

- A coach at the receiving school has served as a personal trainer, coach, conditioner or instructor for the student. For this circumstance, the sport involved is deemed to be any interscholastic sport in which the student has participated or practiced during the current or previous school year.

- The student participated or attended a camp, clinic, combine, showcase or similar event where a coach, trainer, or instructor in the sport involved at the receiving school worked, whether on a paid or volunteer basis.

As used in this rule, the term "coach" includes any person who coaches, volunteers, manages, administers, or assists in any capacity with the coaching or training of the school or non-school team, regardless of compensation or contract status. No personal relationship, individual instruction or direct contact between the coach and the student is required for application of this rule. For example, a coach of a football team, regardless of position or group he/she coaches, is considered to be a coach of the entire football team, at all levels (freshman, junior varsity, varsity), and this rule applies. ***(Emergency Legislation – 3/1/2019)***

15.12.4.14.1 During Summer Enrollment – Beginning with the week identified in the AIA calendar as summer and ending with the week that begins fall practice, a student is considered to have transferred when the student has demonstrated intent to enroll in the receiving school. Intent is identified by the school or school district.

15.13 ELIGIBILITY APPEAL PROCEDURES

15.13.1 In the case of an alleged hardship, a member school may appeal on behalf of a student his/her ineligibility by utilizing the process provided in AIA Bylaw 15.14, Hardship. (Form 15.10)

15.13.2 In all other cases, a member school may appeal on behalf of a student his/her ineligibility by notifying the Executive Director of the appeal in writing, setting out fully and completely the basis for the appeal. The Executive Director, utilizing the authority under AIA Bylaw 7.2.3.7, shall respond in writing within a reasonable time. Should the member school disagree with the determination of the Executive Director, it may ask that the matter be considered by the Executive Board (AIA Bylaw 7.2.3.7).

15.13.3 Review of Prior AIA Hardship Appeals Decision - The AIA Executive Board may review prior decisions regarding eligibility of a student at any regular or special meeting provided:

15.13.3.1 Substantially new and different information has been submitted in written form to the AIA Executive Director.

15.13.3.2 If, in the opinion of the AIA Executive Director, the information is not new and different, the item will not be placed on the agenda.

15.14 HARDSHIP (Form 15.10) - In individual hardship cases the AIA Executive Board or the Hardship Appeals Committee may, at their discretion and upon such terms and conditions as may be imposed, waive or modify the Enrollment Rule (Article 15, Section 3, Paragraph 4 only), Domicile Rule (Article 15, Section 5), Maximum Participation Rule (Article 15, Section 9, Paragraph 1 only), Transfer Rule (Article 15, Section 10), and/or Recruitment Rule (Article 15.12.4.14 only), and/or the International Student Eligibility Rule (Article 15.15.2 only). The appeal shall initially be heard and decided by the Hardship Appeals Committee. The decision of the Hardship Appeals Committee shall be final unless appealed to the AIA Executive Board within five business days from the date of said decision. AIA Executive Board consideration of such appeals will take place only at regularly scheduled monthly meetings, unless otherwise scheduled by the Board. (*See Article 6, Section 3 regarding procedures for meetings of the AIA Executive Board.)* Procedures for appeals to the Hardship Appeals Committee shall be as determined by the AIA Executive Board.

15.14.1 Hardship Defined - Each case is dependent upon its facts, but as a general guideline, the Executive Board will use the following criteria:

15.14.1.1 An unforeseeable, unavoidable, and uncorrectable act, condition, or event, over which the student and his/her family has no control; and

15.14.1.2 Which has caused a severe burden upon the student or his/her family; and

15.14.1.3 Which has caused the student's noncompliance with the eligibility rule(s) involved.

15.14.1.4 Whether athletics plays a role in the circumstances involved in the hardship request.
NOTE: Where it is determined that athletic motivation is present; this would be sufficient, in and of itself, for denial of the hardship request.

15.14.1.5 Loss of eligibility in itself is not to be considered a hardship.

15.14.2 Burden of Proof - The burden of providing evidence of hardship shall be on the student. Full particulars must be given by the student and the school principal must certify that the information given is correct to the best of his/her knowledge and belief.

15.14.3 Enrollment Limitation Hardship - A ninth grade student applying for admission or a student transferring who is denied enrollment because of lack of space may be declared eligible.

15.14.4 Age Rule Exemption - In individual cases the AIA Executive Board may, at their discretion and upon such terms and conditions as may be imposed, waive or modify the age rule (15.6.1), utilizing the information and process set out in Form 15.14.

15.14.5 Upon request by the Executive Director or designee, the sending school shall provide a representative during the hardship appeal hearing(s) before the Hardship Appeals Committee and/or the Executive Board. Failure of the sending school representative to attend shall not prevent or otherwise delay any hearing or decision on the appeal, but the failure to appear SHALL be considered a violation of the AIA Bylaws and may result in sanction as determined by the Executive Board.

15.15 INTERNATIONAL STUDENT ELIGIBILITY – Prefatory Statement: In an effort to preserve and promote interscholastic competitive opportunities for Arizona students and further the goals of competitive fairness, and recognizing the concerns of AIA member schools related to displacement of Arizona students by students from foreign countries, the following bylaw addresses the interscholastic eligibility status of international students attending an AIA member school:

15.15.1 **Foreign Exchange Students** – A foreign exchange student is a student that is in the U.S. under a J-1 Visa, and who is placed in a school by an educational exchange program approved by the Council on Standards for International Educational Travel (CSIET). A foreign exchange student is eligible at a school in the attendance zone of the home in which the student is placed. A foreign exchange student must meet all other eligibility requirements and is eligible for a maximum of one school year.

15.15.2 **International Students** – An international student is a student who is in the U.S. under any Visa or document other than a J-1 Visa and who is attending an AIA member school. Except as stated below with regard to domicile, an international student must meet all eligibility requirements of any regularly enrolled student. An international student is eligible only for non-varsity level competition, which may include only 9th through 11th grade, and is not at any time of enrollment eligible for varsity level competition. With regard to domicile, an international student's non-varsity eligibility shall be at a school in the attendance zone of the home in which the student is placed.

ARTICLE 16

16.1.1.4.2.1 Waive imposing a penalty against the member school.

After hearing the appeal, the AIA Executive Board may, at its discretion:

16.1.1.5.4.1 Waive imposing a penalty against the member school.

16.2.2.1 Require that individual or team records and performances achieved during participation by such ineligible student be vacated or stricken.

16.2.2.2 Require that team victories be forfeited.

SPORTS MEDICINE

43.1 DRUGS, ALCOHOL, TOBACCO

43.1.1 AIA POSITION STATEMENT – SUPPLEMENTS, DRUGS AND PERFORMANCE ENHANCING SUBSTANCES

The Arizona Interscholastic Association (AIA) views sports, and the participation of student-athletes in sport, as an activity that enhances the student-athlete's well-being by providing an environment and stimulus that promotes growth and development along a healthy and ethically based path.

- It is the position of the AIA that a balanced diet, providing sufficient calories, is optimal for meeting the nutritional needs of the growing student-athlete.
- It is the position of the AIA that nutritional supplements are rarely, if ever, needed to replace a healthy diet.
- Nutritional supplement use for specific medical conditions may be given individual consideration.
- The AIA is strongly opposed to "doping", defined as those substances and procedures listed on the World Anti-Doping Agency's Prohibited List (www.wada-ama.org).
- It is the position of the AIA that there is no place for the use of recreational drugs, alcohol or tobacco (e-cigarettes) in the lifestyle of the student-athlete. The legal consequences for the use of these products by a student-athlete are supported by the AIA.

In pursuit of Victory with Honor, the AIA promotes the use of exercise and sport as a mechanism to establish current fitness and long-term healthy lifestyle behaviors. It is the position of the AIA that the student-athlete, who consumes a balanced diet practice sport frequently and consistently, and perseveres in the face of challenges, can meet these goals.

43.1.2 At least annually, each member school shall communicate to its students participating in interscholastic activities the AIA Position Statement on the use of supplement, drugs and performance enhancing substances. (See Form 14.13)

43.1.3 Any coach or competitor using tobacco, alcoholic beverages or misusing drugs while participating in interscholastic competition shall be disqualified from the contest or tournament.

43.4 HAZING EDUCATION – All student athletes shall complete the Hazing online education course prior to participating in practice or competition. The Hazing online education course must be completed by a student-athlete only once.

43.5 CONCUSSION POLICY

43.5.1 Education

43.5.1.1 All AIA Participating schools must have a concussion policy on file: The policy must address the following:

- Concussion Education
- Removal from Play
- Return to Play
- Return to Academics

43.5.1.2 Parents and athletes must sign a form acknowledging education regarding concussion.

43.5.2 Mechanics and Criteria for Removal from Play

43.5.2.1 An athlete, coach, licensed athletic trainer, team physician, official or parent can remove an athlete from play.

43.5.2.2 Only an appropriate health care professional can refute the diagnosis of a concussion.

43.5.3 Return to Play Criteria

- No athlete should return to play (RTP) or practice on the same day of a concussion.
- Any athlete suspected of having a concussion should be evaluated by an appropriate health-care professional that day.
- Any athlete with a concussion should be medically cleared by an appropriate health-care professional prior to resuming participation in any practice or competition.
- After medical clearance, return to play shall follow a step-wise protocol with provisions for delayed return to play based as directed by an appropriate health-care professional.
- Return to play should only occur after an athlete has returned to full school attendance without academic accommodations.

43.5.4 Appropriate Health-Care Professionals for Return to Play

An appropriate health-care professional is defined as the following:

- Licensed Athletic Trainer
- Physician (MD/DO)
- Licensed Nurse Practitioner
- Physician's Assistant

43.5.5 Return to Academics

- Cognitive rest, including reduced screen time, may be recommended for the first 24-48 hours.
- Student-athletes can engage in sub-symptom cognitive activities as tolerated.
- Cognitive exertions should be stopped if concussion symptoms exacerbation is more than mild and brief and may be resumed once symptoms have returned to their prior level. Mild symptom exacerbation is typically brief and does not delay recovery.
- Schools should have policies to facilitate academic support, especially those that address factors that may prolong return to the classroom (e.g. High symptom burden, social determinants of health).
- Not all student-athletes will need academic support or a return to learn strategy.
- While return to learn and return to sport strategies can occur in parallel, student athletes should complete return to learn before unrestricted return to sport.
- Returning an athlete to the classroom following a concussion should follow a return to learn progression.

43.5.6 Other

43.5.6.1 At the beginning of a game, the coach must certify to the official that the equipment is in compliance with safety regulations and properly fitted.

43.5.6.2 If a helmet comes off or becomes dislodged during play, must remain out for one play or call a time out to have the equipment reassessed.

43.6 HEAT ACCLIMATIZATION & EXERTIONAL HEAT ILLNESS MANAGEMENT POLICY

43.6.1 **Definitions**

Exertional heat illness includes the following conditions, ordered from the least to the most dangerous:

a) **Exercise associated muscle cramps**: an acute, painful, involuntary muscle contraction usually occurring during or after intense exercise, often in the heat, lasting approximately 1-3 minutes.
b) **Heat syncope**: also known as orthostatic dizziness, it refers to a fainting episode that can occur in high environmental temperatures, usually during the initial days of heat exposure.
c) **Exercise (heat) exhaustion**: the inability to continue exercise due to cardiovascular insufficiency and energy depletion that may or may not be associated with physical collapse.
d) **Exertional heat stroke**: a severe condition characterized by core body temperature >40°C (105°F), central nervous system (CNS) dysfunction, and multiple organ system failure induced by strenuous exercise, often occurring in the hot environments.

43.6.2 **Prevention**

It is the position of the AIA that prevention is the best way to avoid exertional heat stroke.

1. Education

Athletes and coaches should be educated on how to properly hydrate and minimize risk of exertional heat illness. This may be done through team lectures, educational handouts, guest speakers, or any other means created by the institution and Athletic Trainer.

Athletes and coaches should receive education on how to monitor hydration and rehydration needs by obtaining a weight pre and post activity, and how to recognize and treat someone suspected of exertional heat stroke. Athletes should understand the importance of being well hydrated prior to starting any activity.

Athletic Trainer, coaches, administrators, athletes, and should be aware of individuals with pre-existing conditions that increase the risk of heat illnesses. This may be acknowledged on per-participation exams or brought to the attention of the individual.

Examples of conditions that would increase the risk of heat illness include but are not limited to: a history of heat illness, sickle cell trait/disease, those with known recent illness, individuals who are obese, individuals taking medications and those known to have recently relocated from a more moderate climate.

School personnel should be educated on the signs and symptoms of heat illness and monitor student athletes for any signs of a heat illness throughout practice. These signs and symptoms include (but are not limited to) the table below.

Rectal temperature greater than 105 (40°C) at time of incident.	Rapid pulse, low blood pressure, quick breathing
Headache	Dehydration, dry mouth, thirst
Confusion or just look "out of it"	Decreasing performance or weakness
Disorientation or dizziness	Profuse sweating
Altered consciousness, coma	Collapse, staggering or sluggish feeling
Nausea or vomiting	Muscle cramps, loss of muscle, function/balance, inability to walk
Diarrhea	Irrational behavior, irritability, emotional instability

2. Hydration Strategies

Each institution should develop an appropriate process for hydration distribution. This should include who is responsible for preparing, distributing, refilling, and cleaning hydration means for both practices and games. Different types of fluids may be available depending on institution resources. Fluids should help to offset sweat loss, maintain hydration, and avoid overdrinking.

3. Equipment Considerations

- Wear loose-fitting, light colored and absorbent/moister wicking clothing
- During hot or humid conditions minimize the amount of equipment and clothing worn. (Football: reduce the amount of equipment worn, i.e. helmet and/or shoulder pads)

4. Practice Structure and Time Considerations

- Direct sunlight and high temperatures are most common between the hours of 10 am and 5 pm. During extreme heat, it is best to avoid activities during this timeframe. Always follow guidelines for environmental monitoring for activity modifications.
- As temperatures rise the athlete's ability to counteract a potential rise in body temperature is reduced increasing their risk of heat illness. In order to offset this risk, practice should be shortened when indicated by current environmental conditions.

5. Heat Acclimatization Protocol:

- **This applies to all football and outdoor fall sports teams**
- **A team may not choose to conduct their acclimatization training in a less sever climate.**
- Other sports should follow a heat acclimatization protocol if practicing when the **average WBGTs are in the orange-red zones.**

- Use a WBGT device equivalent to **Kestrel 5400**

Measurement Guidelines:

- WBGT will be obtained on the same playing surface as the practice/event site
- Anytime it is warm outside, specifically anytime it is over 80° F with high humidity
- All environmental monitoring & recommendations should be documented
- May all be utilized for indoor facilities, when not temperature controlled

Monitory Frequency:

- Take WBGT every 30 minutes or as needed due to significant change in weather

Activity Modification:

- Based on WBGT ranges with Arizona being identified as Region 3
  - *See resource: https://ksi.uconn.edu/wp-content/uploads/sites/1222/2018/08/RegionalWBGT_2015_AppliedGeography.pdf*
- Practice modifications are flexible and based on the current environmental conditions: stricter under more oppressive temperatures and relaxed as conditions improve
- Activity modifications based on WBGT readings apply to all sports and training activities. With the exception of in-water activities for aquatic sports (swim/dive). **Aquatic sports** coaches should consider water temperature and availability of shade, ice and water when deciding appropriate mitigation strategies and/or activity modifications. Any dry land training will following the outlined guidelines as directed for all sports.

WBGT	Activity Guidelines
< 82.0	Activity: Normal Rest Breaks: minimum of 3-minute break every 20 minutes of activity
82.1 - 86.9	Activity: use discretion for intense or prolonged exercise Rest Breaks: minimum of 4-minute break, every 20 minutes
87.0 - 90.0	Activity: maximum practice time is 2 hours Rest Breaks: minimum of 4-minute break every 15 minutes Equipment Restrictions: Helmet, shoulder pads, and shorts during practice. If the WBGT reaches this zone after practice has started: players may continue in pants
90.1 - 91.9	Activity: Maximum practice time is 1 hour. No conditioning activities. Rest Breaks: minimum of 5-minute break every 15 minutes Equipment Restrictions: NO protective equipment to be worn Off campus sports: a designated adult is within line of sight to all athletes to monitor signs of heat illness and activate an emergency action plan if needed.
≥ 92.0	No outdoor workouts. Delay practice until a cooler WBGT is reached.

43.6.3 **Exertional Heat Strock Treatment: This is a medical emergency.**

1. Recognition
   - Any athlete with signs of central nervous system dysfunction during exercise in the heat should be suspected to be suffering from EHS. Please see table above to review additional signs and symptoms of exertional heat stroke.
   - Immediately active EMS and site-specific exertional heat stroke protocol
   - It is important to emphasize that during and following intense exercise in the heat, temporal, aural, oral, skin, axillary and tympanic temperature are not valid and should never be utilized in diagnosis of a potential exertional heat stroke. Rectal temperature is the only valid measuring tool sensitive enough to accurately diagnose exertional heat stroke.

2. Cooling
   - The patient must be cooled immediately.
   - If accessible, move to a cooler environment
   - Remove excess clothing and equipment
   - Utilize one or more of the acceptable immersive cooling methods:
     - Cold-water immersion (35-59°F) tub up to the neck if possible
     - Tarp Assisted Cooling Oscillation (TACO)

   If immersive techniques are unavailable utilize other cooling means such as Ice bags/towels on the groin, neck, and axilla until EMS arrives and can immediately transport to a higher level of care.
   See Resources: PowerPoint Presentation (nata.org) or untitled (nata.org)
   - Vital signs should be monitored every 5 minutes throughout cooling process

   Cool First, Transport Second
   - When a patient is diagnosed with EHS, the principle of Cool First, Transport Second should be used when immersive cooling is available.
   - Patient should be kept in immersive cooling until reaching a core temperature of **~102°F** measured via rectal thermometry

43.6.4 **Exertional Heat Stroke Return to Play**

- Refrain from exercise for at least 7 days following the acute event
- Prior to beginning a return to exercise, anyone suspected of suffering from a heat stroke must receive clearance by a physician or advanced practice provided (MD, Do, NP, PA-C)
- Upon clearance by a provided:
  - Begin exercise in a cool environment and gradually increase the duration, intensity, and heat exposure over 2 weeks to acclimatize and demonstrate heat tolerance.
- Refer for follow up with provider if unable to complete a full return after 2 weeks of acclimatization

43.7 MEDICAL INTERVENTION PROCEDURE

43.7.1 Medical interventions which increase the risk of disease exacerbation or additional injury are never appropriate on the day of competition, or on any other day, for a high school student-athlete. There are three steps of decision making for the basis of the Return to Play decision. These include evaluation of health risks, participation risks, and any factors in decision modification. If a disease process or injury is not adequately controlled by the day of competition to allow safe clearance for play with full function, then invasive medical procedures on the day of competition, performed with the sole purpose of enabling the student-athlete to participate, are philosophically inappropriate and shall not be performed on site. These prohibitive procedures are to include IV's, joint injections, and prescription strength medications not prescribed appropriately to the student athlete.

43.8 EMERGENCY ACTION PLANS

43.8.1 An Emergency Action Plan (EAP) for each practice and competition site, used by the school, shall be completed annually by each member school. The EAP must be kept on file at the school and shared with the appropriate coaches and staff. The emergency action plan should be comprehensive and practical, yet flexible enough to adapt to any emergency situation.

43.8.2 The Emergency Action Plan should contain the following information and/or components:

- Emergency plans must be written documents and should be developed in concert with the member schools' certified athletic trainer(s).
- Emergency plans must be written documents and should be distributed to team and attending physicians, athletic training students, institutional and organizational safety personnel, institutional and organizational administrators, and coaches.
- The emergency plan should be developed in consultation with local emergency medical services personnel.

(Section 43.7 cont'd. on next page)

- An emergency plan for athletics identifies the personnel involved in carrying out the emergency plan and outlines the qualifications of those executing the plan.
- Sports medicine professionals, officials, and coaches should be trained in automatic external defibrillation, cardiopulmonary resuscitation, first aid, and prevention of disease transmission.
- The emergency plan should specify the equipment needed to carry out the tasks required in the event of an emergency. In addition, the emergency plan should outline the location of the emergency equipment. Further, the equipment available should be appropriate to the level of training of the personnel involved.
- Establishment of a clear mechanism for communication to appropriate emergency care service providers and identification of the mode of transportation for the injured participant are critical elements of an emergency plan.
- The emergency plan should be specific to the activity venue. That is, each activity site should have a defined emergency plan that is derived from the overall institutional or organizational policies on emergency planning.
- Emergency plans should incorporate the emergency care facilities to which the injured individual will be taken. Emergency receiving facilities should be notified in advance of scheduled events and contests. Personnel from the emergency receiving facilities should be included in the development of the emergency plan for the institution or organization.
- The emergency plan specifies the necessary documentation supporting the implementation and evaluation of the emergency plan. This documentation should identify responsibility for documenting actions taken during the emergency, evaluation of the emergency response, and institutional personnel training.
- The emergency plan should be reviewed and rehearsed annually, although more frequent review and rehearsal may be necessary. The results of these reviews and rehearsals should be documented and should indicate whether the emergency plan was modified, with further documentation reflecting how the plan was changed.
- All personnel involved with the organization and sponsorship of athletic activities share a professional responsibility to provide for the emergency care of an injured person, including the development, implementation and regular, periodic evaluation of an EAP.

43.9 STUDENT INSURANCE

It is recommended that each student athlete have on file with the principal or his/her designee proof of insurance coverage or a waiver prior to practice.

43.10 POST SEASON EVENT PROTOCOL

43.10.1 Applies for the following AIA Post Season Events:

- Football
- Volleyball
- Soccer
- Basketball
- Wrestling
- Baseball
- Softball
- Spiritline

43.10.2 An Emergency Action Plan (EAP) must be filed with AIA in order to host a post season tournament.

43.10.3 Qualified Medical Profession (QMP)/EMT Coverage.

43.10.3.1 All ATC/QMP/EMT services at AIA Post Season Events will be paid or reimbursed by the AIA. (Note: “Region” events are not AIA events – ATC/QMP/EMT is not paid by AIA)

43.10.4 AIA State Tournaments at High Seed Sites:

43.10.4.1 Member schools must engage a qualified medical professional (QMP) or Emergency Medical Technician (EMT). One of the following three protocol options must be followed or payment may not be issued:

43.10.4.2 If there is no QMP or EMT at the game, the game shall not be played.

43.10.4.2.1 QMP as defined by Arizona Revised Statute §15-341:

- ATC – Certified Athletic Trainer
- MD – Medical Doctor
- DO – Doctor of Osteopathic Medicine
- NP – Licensed Nurse Practitioner
- PA – Licensed Physician’s Assistant

(Section 43.9 cont’d. on next page)

43.10.4.2.2 If a school does not have a QMP or EMT and the opposing school does, in order for the game to proceed, the QMP or EMT agrees to cover the opposing school as well as their own school.

43.10.4.3 If ONLY an EMT is at the game, any player removed due to suspected head injury or concussion will not be allowed to enter or re-enter the game based on an EMT evaluation. Return to play can only be based on evaluation by a QMP.

43.10.5 AIA State Tournaments at Neutral Sites:

- AIA Staff will secure QMPs that will be contracted through the AIA or a third-party vendor.
- If the QMP is a Certified Athletic Trainer, **the ATC must provide the AIA with a certificate of professional liability insurance** and be familiar with the AIA/ATC protocol.

43.11 TITLE IX PARTICIPATION - If made in compliance with Title IX and A.R.S. 15-120.02, a school may make a request on behalf of a student utilizing the procedure in the link below. If the student has been granted eligibility to participate in interscholastic athletics consistent with Title IX and A.R.S. 15-120.02, the eligibility is granted for the duration of the student's participation and does not need to be renewed every sport season or school year. All discussion and documentation will be kept confidential, and the proceedings will be sealed unless the student and family make a specific request.
Title IX Participation Request

43.12 AIA POLICY AND PROCEDURE RELATED TO DISABILITY DISCRIMINATION (SECTION 504 AND AMERICANS WITH DISABILITYES ACT)

It is the policy of the AIA not to discriminate based on disability in admission to, access to, or operation of its programs, services, and activities.

Persons with a disability may request reasonable accommodation(s) or modification(s) by making a written request to the AIA Compliance Officer (Compliance Officer) named below. Requests should be made as early as possible to allow adequate time to consider and arrange for any accommodation or modification. An individualized inquiry will be made to determine whether a specific accommodation or modification for a particular person's disability is reasonable under the circumstances as well as necessary for that person and does not fundamentally alter the nature of the service, program, or activity. The Compliance Officer will consult with and obtain input from the requestor's school/district regarding the reasonableness of the accommodation or modification request. A written response to the request will be provided by the Compliance Officer within ten (10) business days, with a copy of that written response provided to the relevant school/district. Questions, concerns, complaints, or requests for additional information should be directed to the Compliance Officer.

The designated Compliance Officer, and contact information, is:

Dr. Jim Dean, Executive Director
7007 N. 18th St.
Phoenix, AZ 85020
(602-385-3811)
Email: jdean@aiaonline.org

Any person who believes she or he has been subjected to discrimination on the basis of disability may file a grievance under the following procedure. It is against the law for AIA to retaliate against anyone who files a grievance or cooperates in the investigation of a grievance.

Procedure:

Grievances must be submitted to the Compliance Officer within thirty (30) days from the date the person filing the grievance becomes aware of the alleged discriminatory action;

A grievance must be in writing, containing the name and address of the person filing it, and must state with specificity the problem or action alleged to be discriminatory and the remedy or relief sought;

The Compliance Officer shall conduct an investigation of the grievance. This investigation may be informal, but it will be thorough, affording all interested persons an opportunity to submit evidence relevant to the grievance;

The Compliance Officer will issue a written decision after completion of the investigation, within thirty (30) days from the receipt of the grievance, unless extenuating circumstances require additional time, and in such case the Compliance Officer will communicate with the complainant concerning the need and reasons for an extension. The written decision will be provided to the complainant and relevant member school/district;

The person filing the grievance may appeal the decision of the Compliance Officer by writing Dr. Jim Dean, AIA Executive Director, 7007 N. 18th St, Phoenix, AZ 85020 (email: jdean@aiaonline.org) , within twenty (20) days from the date of the decision of the Compliance Officer. The Executive Director shall issue a written decision in response to the appeal within thirty (30) days from the date of receipt of the appeal. The written decision will be provided to the complainant and relevant member school/district.

The above policy and procedure is posted on AIA's website, aiaonline.org, including the identification of and contact information for the Compliance Officer.
